SKILLS

FRONTEND
React • Next.js • TypeScript •
JavaScript (ES6+) • Redux Toolkit

STYLING & UI
HTML5 • CSS3 •
Responsive Design • GSAP

BACKEND & DATA
Firebase • Firestore • REST APIs

DEVELOPMENT TOOLS
Git • GitHub • Vercel • VS Code

TECHNICAL STRENGTHS

- Responsive Design
- Reusable Components
- State Management
- API Integration
- Authentication
- Performance Optimisation
- Git Workflow
- Accessibility

EDUCATION

Frontend Simplified — Frontend Development Bootcamp & Internship
HTML • CSS • JavaScript • React •
Next.js • Node.js • TypeScript • Redux
2025-2026

BA (Hons) Business Administration & Management
London Metropolitan University
2021 – 2023

PROFESSIONAL SUMMARY

Frontend developer with practical experience delivering responsive web applications through real-world projects and internship experience using React, Next.js and TypeScript. Previously progressed into senior leadership roles within retail management, developing strengths in problem solving, data-driven decision making and leading cross-functional execution. Brings a product-oriented mindset to software development with a focus on building reliable, user-centred experiences that solve real business and customer problems.

PROFESSIONAL EXPERIENCE

- Frontend Developer Intern** May 2026 – June 2026
Frontend Simplified (Skinstric)
 - Developed responsive multi-page application features using Next.js and TypeScript following production-style design requirements.
 - Integrated image upload and API-driven analysis flows to process and display dynamic analysis results.
 - Implemented Redux Toolkit to manage and persist application state across multiple user flows.
 - Built reusable UI components and responsive layouts to improve maintainability and user experience.
 - Managed deployment workflow using GitHub and Vercel.
- Store Manager** June 2025 – Present
Suitsupply | London, UK
 - Sustained +50%+ growth vs LY across multiple quarters by analysing historical performance trends, identifying customer demand patterns and continuously refining commercial strategy.
 - Used reporting tools and business data (Power BI, SKB, Looker) to evaluate performance, prioritise opportunities and make iterative decisions across merchandising, stock allocation and customer experience.
 - Supported long-term growth by improving operational capacity through team development, workflow optimisation and store expansion initiatives to better match customer demand.

PROJECTS

- Skinstric (Internship Project)** [Live Demo](#) | [Repository](#)
Next.js • TypeScript • Redux Toolkit • CSS
 - Built AI-powered skin analysis experience integrating image upload and external API responses.
 - Developed multi-step analysis flow with persistent state and dynamic result rendering.
 - Implemented Redux Toolkit to manage application state across complex user interactions.
- Summarist** [Live Demo](#) | [Repository](#)
React • Firebase • Authentication
 - Built audiobook platform featuring authentication, protected access and personalized user experiences.
 - Integrated Firebase and dynamic content rendering to support user interactions and scalable application flows.
 - Developed reusable React components and responsive UI patterns to improve maintainability.
- Ultraverse** [Live Demo](#) | [Repository](#)
React • REST APIs • Interactive UI
 - Built responsive NFT marketplace with filtering and seller/NFT exploration.
 - Integrated external APIs and marketplace analytics to deliver dynamic content.
 - Enhanced user experience through carousel interactions, animations and live countdowns.
- Movie Vault** [Live Demo](#) | [Repository](#)
React • REST APIs
 - Built movie discovery platform enabling search and detailed movie exploration.
 - Implemented filtering, dynamic routing and responsive browsing experience.
 - Improved perceived performance through loading states and asynchronous rendering.
